

CS Topics: Mobile Application Development

Unit 1 Project: Connect 4 - Part 2

ALL ITEMS ARE SUBJECT TO CHANGE

Part 2 [*In Class ONLY*]: Designing a custom Button (1 Day, 10 points)

- a. You may use AI tools or any design platform to generate this button.

THIS IS THE ONLY PORTION OF THE PROJECT WHERE FULL AI ASSISTANCE IS ALLOWED.

Here is the detailed rubric:

Part 2: Custom Button Design Rubric	
Task	PTS
Created a custom button using AI or another design tool.	4
Custom button is correctly integrated into the app (functional and visible). To achieve this, set up the code for at least two buttons in your table layout. One button, when clicked, will show Player 1's checker, and the other will show Player 2's when clicked. You do not need to add this functionality to all the buttons. This is strictly to test that your button will appear as needed.	3
Thoughtful button design - and AI prompts were included as a Google Doc that will be submitted. You must show that the color can be changed based on the player (red/black).	3
Teacher assistance in debugging code errors other than those created by Android Studio.	-1 per assist
TOTAL	10
